The login button is enabled, when **ActiveX** is installed successfully in your system.

3 Configuring ActiveX

When ActiveX is installed, you have to configure it. To configure ActiveX follow the below steps.

- 1. Refresh the **ARCOS login** page in your Internet Explorer browser.
- 2. Go to Tools Internet Options Security tab
- 3. Click Local intranet icon, click Sites button. A Local intranet window pops up.

Internet Options
General Security Privacy Content Connections Programs Advanced
Select a zone to view or change security settings.
Internet Local intranet Trusted sites Restricted
sites
Local intranet Sites This zone is for all websites that are found on your intranet. Sites
Security level for this zone Allowed levels for this zone: All
Medium-low Appropriate for websites on your local network (intranet)
Enable Protected Mode (requires restarting Internet Explorer)
Custom level Default level
Reset all zones to default level
OK Cancel Apply

4. Click Advanced button. The Local intranet window pops up.

Local intranet	
Use the settings below to define which websites are included in the local intranet zone.	
Automatically detect intranet network	
Include all local (intranet) sites not listed in other zones	
Include all sites that bypass the proxy server	
Include all network paths (UNCs)	
What are intranet settings? Advanced OK Cancel	

5. Enter the ARCOS web server address in the Add this website to the zone text field and click Add

Local intranet
You can add and remove websites from this zone. All websites in this zone will use the zone's security settings.
Add this website to the zone:
http://10.10.0.122 Add
Websites:
Remove
Require server verification (https:) for all sites in this zone
Close

- 6. A Local intranet message window 'The site you specified already exists in the Trusted sites zone. Would you like to move it to the Local intranet zone? 'pops up.
- 7. Click Yes button.

button.

- 8. The website address is added in the **Websites** text area.
- 9. Click **Close** button to close the Local intranet window.
